Every parent who attends will receive a book provided by the federal government called: *Net Cetera: Chatting With Kids About Being Online*. The book gives adults practical tips to help kids navigate the online world.

At the conclusion of the presentation, the City Schools of Decatur **media/instructional technology specialists will be at kiosks sharing** with parents the online resources our staff and students use daily. We have subscribed to services such as **NetTrekker, World Book Online**, and others providing a safe, efficient, reliable way to complete online research.
